10. Ordering Physician's Signature Your signature Constitutes a Certification of the Following: When ordering PathFinderTG from which reimbursement from Medicare, Medicaid or other third party payors will be sought by RedPath, I certify that the above ordered molecular analysis is reasonable and medically necessary for the diagnosis, care and treatment of this patient's condition. This patient has been notified that additional testing via RedPath's PathFinderTG process has been requested. I also hereby authorize RedPath to send on my behalf this patient's test results to the patient's third party payor in connection with an appeal of a reimbursement denial or other reimbursement matter; but only where RedPath has made prior attempts to obtain reimbursement without the release of such test results.

Signature	Print Name	Order Date
-----------	------------	------------

The purpose of this form is to obtain information necessary for RedPath to perform testing. Failure to properly complete the form may cause delay in the processing and testing of specimens.

INSTRUCTIONS FOR COMPLETING REQUISITION

RedPath Integrated Pathology, Inc.
 2515 Liberty Avenue
 Pittsburgh, PA 15222
 Local: 412-224-6100
 Toll free: 1-800-495-9885
 Fax: 412-224-6425
 www.redpathip.com

<p>1. Patient Information Patient's addressograph label may be applied to the requisition. All information must be complete and legibly printed.</p>												
<p>2. PathFinderTG® Billing/Insurance Information RedPath Integrated Pathology will bill directly for patients that are insured by Medicare, Medicaid or any private third-party payor, whenever permitted by government regulations, payor billing policies or contractual arrangements. You must fully complete the requested patient billing information on this requisition form in order for us to provide this service. For those patients who are not insured by any third-party payor and do not meet eligibility criteria for RedPath Integrated Pathology's Uninsured Patient Program, or where required by government regulations, payor billing policies or contractual arrangements, RedPath will be required to bill submitting hospital or healthcare institution.</p> <p>Tissue Identity cases will be billed to the ordering institution. Do not submit patient insurance information.</p> <p>If you have questions concerning billing policies, please contact Provider Services at 1-800-495-9885.</p>												
<p>3. Ordering Institution/Entity Enter the name of the Hospital, Healthcare System, Physician Practice or organization that is the originator of the order.</p>												
<p>4. Contact Name of person to contact regarding problems with the submitted requisition or samples.</p>												
<p>5. Physician Information Reports will be faxed to Physicians listed, if fax number is provided. Reports can only be faxed to the physicians or departments listed in this section.</p>												
<p>6. Specimen Information PathFinderTG® is available for solid tissue, cytology or fluid specimens. Indicate the type of specimen by checking the appropriate box and indicate the number of each specimen type submitted. Each case should have its own Requisition Form, but if a case contains multiple types of specimens, please check each box that applies.</p>												
<p>7. Clinical Information All parts of this section must be completed. Please include a pathology/cytology/endoscopy report, if available. If specimens are pulled from archive for submission to RedPath, the date and time of retrieval must be recorded as this is required information for billing.</p>												
<p>8. Test Menu Please check the box for the test that you are requesting. Please contact us if you have questions regarding the test menu.</p>												
<p>9. Diagnostic Question Section Please check the appropriate box to indicate the diagnostic question for which integrated microscopic/molecular analysis is being requested. See description of included diagnostic questions below. If none apply, indicate by checking off next to Other and document applicable diagnostic question.</p> <table border="1" style="width: 100%; border-collapse: collapse; margin-top: 10px;"> <thead> <tr> <th style="text-align: center;">Diagnostic Question</th> <th style="text-align: center;">Definition</th> </tr> </thead> <tbody> <tr> <td>Reactive vs. Neoplastic</td> <td>Reactive versus Neoplastic (cancer) causation</td> </tr> <tr> <td>Benign vs. Malignant</td> <td>Benign versus malignant discrimination</td> </tr> <tr> <td>Reactive vs. LGD</td> <td>Reactive atypia versus true low grade dysplasia</td> </tr> <tr> <td>LGD vs. HGD</td> <td>Low grade dysplasia versus high grade dysplasia</td> </tr> <tr> <td>Metastatic vs. Primary</td> <td>Metastasis/recurrence of prior cancer versus new primary cancer formation</td> </tr> </tbody> </table>	Diagnostic Question	Definition	Reactive vs. Neoplastic	Reactive versus Neoplastic (cancer) causation	Benign vs. Malignant	Benign versus malignant discrimination	Reactive vs. LGD	Reactive atypia versus true low grade dysplasia	LGD vs. HGD	Low grade dysplasia versus high grade dysplasia	Metastatic vs. Primary	Metastasis/recurrence of prior cancer versus new primary cancer formation
Diagnostic Question	Definition											
Reactive vs. Neoplastic	Reactive versus Neoplastic (cancer) causation											
Benign vs. Malignant	Benign versus malignant discrimination											
Reactive vs. LGD	Reactive atypia versus true low grade dysplasia											
LGD vs. HGD	Low grade dysplasia versus high grade dysplasia											
Metastatic vs. Primary	Metastasis/recurrence of prior cancer versus new primary cancer formation											
<p>10. Ordering Physician's Signature Processing of your case will be delayed until this information is received by RedPath Integrated Pathology. The ordering physician must sign the requisition form to verify that the requested analysis is reasonable for the diagnosis, care and treatment of the patient's condition.</p>												
<p><i>The purpose of this form is to obtain information necessary for RedPath to perform testing. Failure to properly complete the form may cause delay in the processing and testing of specimens.</i></p>
